

Local Producer

Linda Horvay

Lexington, KY

Founded in May 2006

Linda's beautiful handmade note cards are the product of a scrap art exhibit she was asked to make using recyclable materials at a local peace fair. Her past enjoyment of making cards and the new idea of recyclable art materialized into over 300 different designs. Most of the cards have flower designs on them. Linda says, "I choose flower motifs because flowers express various moods and commemorate various occasions - plus not everyone can send real flowers."
